HACKMINDS OFFICIAL EXAMINATION REPORT

Linux Challenge #001 — The Hidden File Mystery

Participant ID/Name	FAOYE OLUWALEYE O.
Challenge	Linux Challenge #001 — The Hidden File Mystery
Submission evidence received	Four screenshots and six written knowledge-question answers.
Time-limit statement	Completion within 30 minutes could not be independently verified.

MARK BREAKDOWN

Assessment area	Maximum marks	Awarded marks
Level 1 — Directory and file creation	10	10
Level 2 — Hidden file investigation	25	25
Level 3 — File permissions	20	20
Level 4 — Final investigation	15	15
Knowledge questions	20	19
Evidence quality	10	9
TOTAL	**100**	**98**

ASSESSMENT FINDINGS

Tasks successfully verified

- Level 1: HACKMINDS directory and mission.txt creation, navigation, and required statement entry.
- Level 2: Hidden file creation and renaming, normal versus hidden-inclusive listings, and hidden-file content display.
- Level 3: Initial permission inspection, permission change, and verification of -rw-r----- (numeric value 640).
- Level 4: Listing visible and hidden files, displaying both file contents, identifying the hidden file, and counting two regular files.

Tasks not verified

No practical task was left unverified in the submitted screenshots. The 30-minute completion time was not independently verified.

Missing or unclear evidence

No independent timing evidence was provided. The participant's name was supplied after the initial submission.

Knowledge-question assessment

All six answers demonstrated sound understanding of hidden files, directory listings, Linux permissions, the numeric permission value 640, and access control. Awarded: 19/20.

FINAL RESULT

98/100

98% | LINUX COMMAND MASTER

STATUS: PASS | Pass mark: 75/100

EXAMINER'S REMARK

The participant demonstrated excellent practical competence in basic Linux file management, hidden-file investigation, permission management, and terminal operations. All four practical levels were demonstrated with supporting terminal evidence. The written responses also showed a sound understanding of the fundamental concepts assessed. Practical execution and verification of file permissions were particularly commendable.

Official Examiner's Verdict: EXCELLENT PERFORMANCE.

This report records the result of the submitted challenge assessment. It is not an accredited professional Linux certification.
